

Features:

- Fully programmable from 2800 panel
- 32 Red LEDs
- Lamp Test

Ideal For:

- Flow Switch Indication
- Valve Tamper Indication
- Zone Alarm Indication
- Non Alarm Input Indication

Description:

The 2800-ACM-32A Annunciator Module connects to the AFP-2800 RS485 communication ring and can be mounted internally or externally from the panel.

This module is ideal for flow switch indication, pump indication or zone indication. Each LED is individually programmed and controlled from the fire panel.

Slide in paper labels make custom labelling simple and neat.

Up to 99 annunciators can be installed per communications ring.

Specifications:

Operating Voltage:	18-27VDC
Current Consumption:	100mA Max
Communications:	RS485
Addresses:	1-99
